ENVIRONMENTAL PROTECTION/LIGHT LUXURY/SIMPLICITY
HIGH END ALL ALUMINUM HOME FURNISHINGS

CCTV
STRATEGIC PARTNERS

COMPANY PROFILE

Foshan Ruimei Aluminum Co., Ltd, founded in 2004 is a focus on extrusion, research and development, raw materials wholesale, processing and customization as one of the all-aluminum furniture profiles ,factory Factory building area are more than 40,000 square meters, with a number of extrusion production lines, woodgrain transfer workshop, honeycomb panel production line, flat sticker production line, welded and

polish production line of the whole plate, finished product production workshop, more than 1,000 square meters of showroom and so on, Achieve independent development of the 10,000 square meters of spot material inventory! Workshop spot supply, customized products, strength and product quality has been recognized by the industry. Main products all-aluminum furniture profiles wholesale, welded panels, all-aluminum honeycomb panels, SPC aluminum honeycomb panels, PETG all-aluminum honeycomb panels, bamboo charcoal panels, PVC aluminum panels, impact panels, ceiling panels, wall decor panel , 20-frame minimalist glass doors, glass cabinets profiles, ancillary processing equipment and other series of furniture decoration and decorative materials, its sales model of wholesale of raw materials, finished products, customized, distribution to join the molding processing and customization in a matter of years! Time, the rise of all-aluminum home so far customers all over the country and Southeast Asia, the company since its inception, adhere to the spirit of craftsmanship, the concept of excellence, became a strategic partner of CCTV, history has witnessed the rapid and stable development of sharp magnesium enterprises.

RuiMei's products, whether it is the selection of materials, technology, quality control or later product inspection standards.Are extremely harsh and rigorous, so that every part of the product color and lustre uniformity, fine texture, to achieve "no defects, zero defects" of the ultimate quality performance.

" RUIMAGNESIUM ALL "
ALUMINUM HEALTHY HOME

TO CROWN ONE'S QUALITY IN THE NAME OF A CHAMPION

TO MAKE ALL ALUMINUM FURNITURE CHOOSE RUIMEI ALUMINUM

ONE-STOP WHOLE-HOUSE CUSTOMIZATION SOLUTION

Extrusion production plant

10,000-square-foot extrusion production plant with multiple extrusion lines.

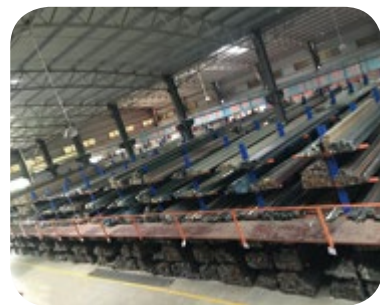

Surface Color Finish

With wood grain transfer, electrostatic spraying, anodic oxidation, fluorocarbon, outdoor wood grain and other advanced technology

Finished product customization R&D workshop

Professional customized high-end all-aluminum whole set production team
Research and development, innovation as a whole

Raw material workshop inventory

10,000-square-foot stockroom, 1,000 tons of inventory, off-the-shelf availability

Welding Plate Shop

Laser welding and 20-head grinding machine, sufficient mass production
No stock out, no shortage of stock. Quality Assurance

Honeycomb panel workshop

Fully automated production line for flat laminating machine and honeycomb panel production line, Trimming machine production line, high production efficiency, high speed

JOIN RUIMEI THE WHOLE SUPPORT

There is no learning, only do not want to learn. Professional technology, professional master, achievement of professional you attentive service to let you open a factory store the whole worry-free

Large integrated advantages to solve the pain points of all-aluminum industry

01

Short Video Shooting Instruction

Short video shooting, easy to get started. Become a professional photographer in seconds

02

Short video editing instruction

Personally instructed by experienced editors, short video Editing instruction to let your creativity fly.

03

Short video operation teaching

We bring you short video operation instruction that Let your creativity and talent bloom on camera!

04

Software teaching

From the material, measurements Installation and production, one-stop service

05

Undercutting instruction

Free technical training by professional masters.Zero-based teaching package

06

The teaching material

Professional masters hand in hand zero basis to start teaching, package teaching, go back to easy to make.

07

Whole house decoration Teaching

No education, no experience, easy to operate, one or two days to learn

LOW INVESTMENT, HIGH RETURN, EASY TO BE A BOSS

Really open the modern environmental protection furniture era!

All-aluminum alloy cabinet has the absolute advantage that traditional plate cabinet cannot have.

PRODUCTION INVESTMENT PROGRAM

3 Beginner type 30,000 ¥ (Including equipment)

① The project is suitable for people: those who have not done related industries, preliminary understanding of the local market situation. Very optimistic about the product market prospects, want to try to do their own business.

② Investment advice: on a color, make two models to do a variety of samples.

7 Standard type 70,000 ¥ (Including equipment)

① Project suitable for people engaged in the decoration of windows and doors related industry original related customer resources stable, perfect sales network, with the ability to quickly open the market.

② Investment advice on two colors, do more than one product, on all kinds of styles of samples.

5 Entrepreneurial 50,000 ¥ (Including equipment)

① The project is suitable for people: those who have not done related industries, preliminary understanding of the local market situation. Very optimistic about the product market prospects, want to try to do their own business.

② Investment advice on two colors, do more than two products, do a variety of samples.

10 Complete type 100,000 ¥ or more (Including equipment)

① Project suitable for people engaged in cabinet closet finished wholesale more than a year, the existing in doing customer resources stable, perfect sales network, interpersonal relations with the industry in-laws familiar, with a certain influence.

② Invest in more than one kind of color, make more than one kind of products, and get all the samples of various styles.

10 ADVANTAGES OF ALL ALUMINUM FURNITURE GIVE YOU A REASSURING REASON TO CHOOSE RUIMA

DAMP PROOF AND WATERPROOF

Good moisture-proof performance, more suitable for humid areas

FIRE PROTECTION

Aluminum alloy has strong heat-resistant properties, overcoming the shortcomings of the general general sheet can not withstand burning.

GREEN FORMALDEHYDE FREE

All-aluminum furniture does not require any formaldehyde-containing materials in the production process, truly realizing zero formaldehyde.

BEAUTIFUL AND GENEROUS

Imitation of real wood texture and color, visual noble and elegant, fine and realistic lines. Stable than real wood, no dulling, no fading.

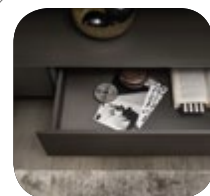

IMPACT RESISTANCE

Aluminum cabinets have strong impact resistance, stable structure, and bending strength up to 150Mpa.

EXCELLENT DURABILITY

Precision aluminum molding cabinet, to meet the quality requirements of the outdoor curtain wall, to ensure that the product is durable for decades.

NO ODOR

The cabinet is made of aluminum alloy frame splicing, alloy fittings processed in a clean environment, the product has no odor.

RECYCLE AND PRESERVE VALUE

The cabinet is made of refined aluminum alloy, and if you replace the furniture, you can recycle it at any recycling point around the area.

IMMUNE TO MOTHS

All-aluminum homes are tough and never rot. Resistant to termites, insects and other infestations

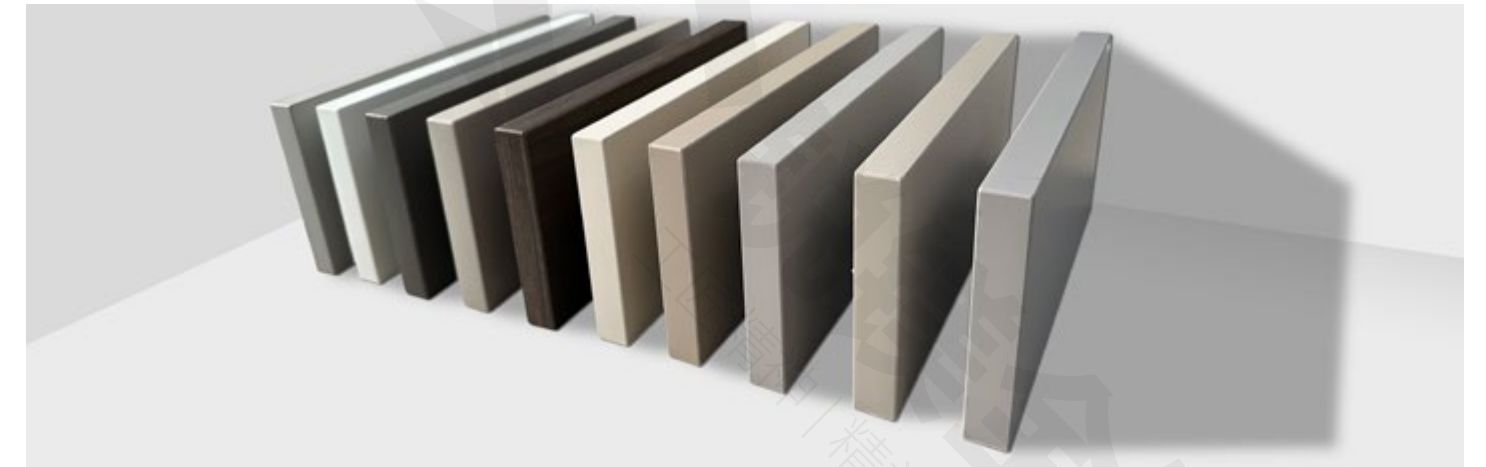

CONVENIENT INSTALLATION

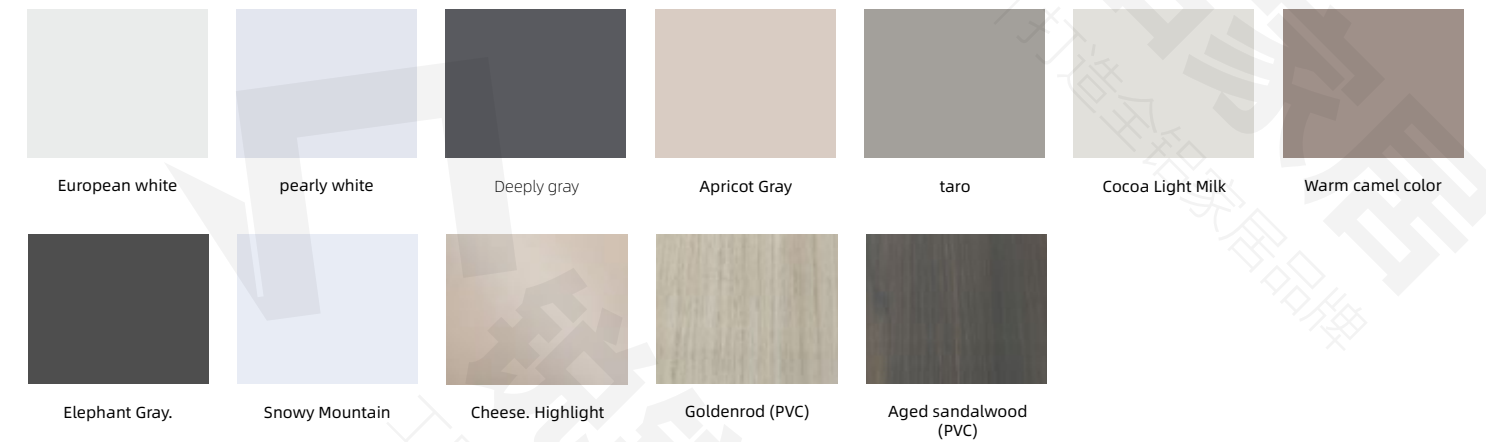

Streamlined process Quick to install, dismantle and move at will, Recyclable and retrofittable

ALL-ALUMINUM HONEYCOMB PANEL

All-aluminum honeycomb panel stock thickness: 18mm, 16mm, 10mm, 7mm, 5mm (support custom size thickness color)

PETG honeycomb board series

SPC/PVC Aluminum Honeycomb Panel Series

18mm honeycomb panel color card

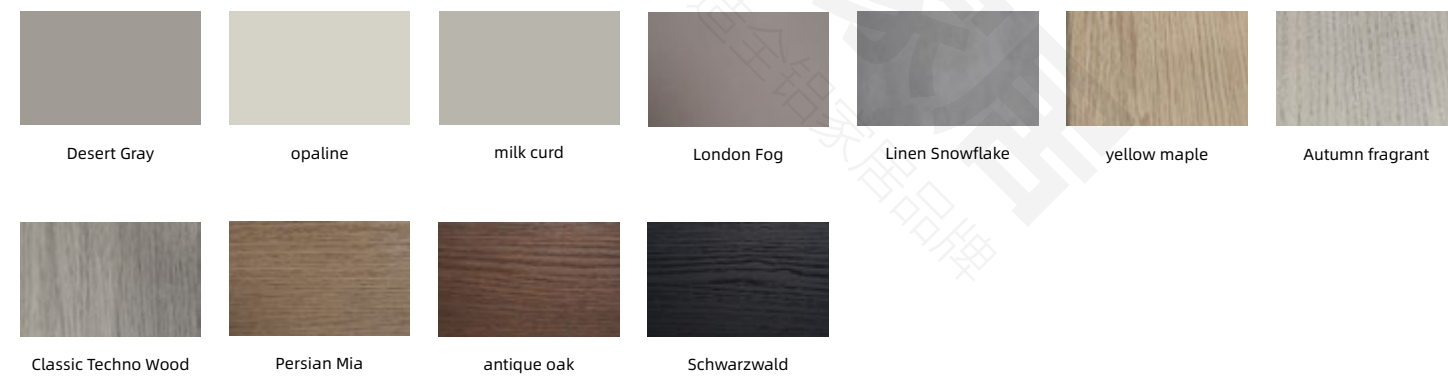

Solid Color – Electrostatic Coating

Wood Grain–Wood Grain Heat Transfer

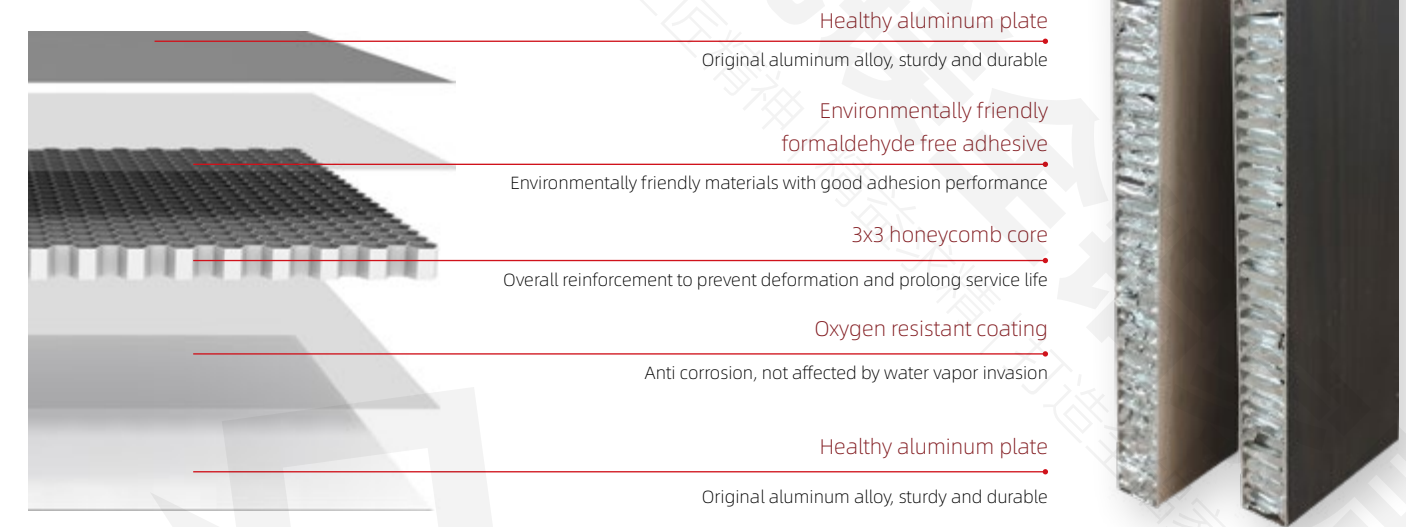

SN anti-scratch 3D wood grain hand grain series

GAUDIN ALL-ALUMINUM HOME PANELS

NEW ENVIRONMENTALLY FRIENDLY SUBSTRATE FOR ALL ALUMINUM HONEYCOMB PANELS NEW MATERIAL SELECTION FOR ALL ALUMINUM FURNITURE

High quality materials+high-strength craftsmanship+precision machining=wear-resistant, scratch resistant, and dust-free

NEW PRODUCT RECOMMENDATION: MULTI-LAYER ALL ALUMINUM HONEYCOMB PANEL HIGH END ALL ALUMINUM PREFERRED, WITH ONE DOOR TO THE TOP THAT NEVER DEFORMS AND TOP REINFORCEMENT DESIGN

Multi-layer honeycomb panels also have excellent corrosion resistance and durability, and can be used to manufacture corrosion-resistant materials and durable structures and products. At the same time, multilayer honeycomb panels can be customized to meet different needs and requirements, allowing structures and products to be manufactured in a variety of shapes and sizes.

Wood grain/spray painting/film application process

Rich in colors, wear-resistant and scratch resistant, comfortable to the touch

Four layer aluminum plate

Original aluminum alloy, sturdy and durable

Three layer honeycomb core

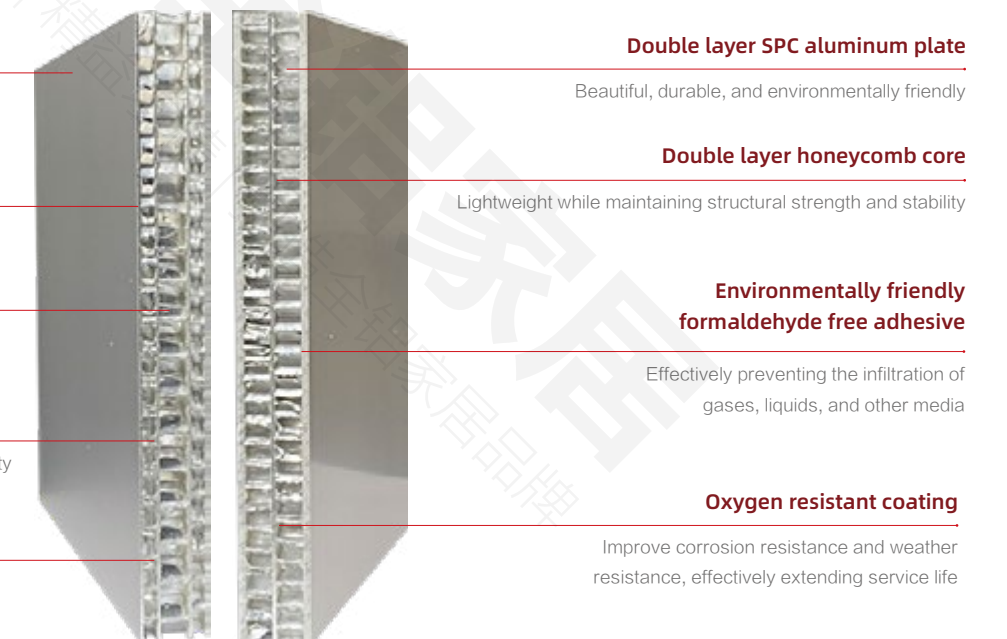

Has high bending stiffness for layered structures

Environmentally friendly formaldehyde free adhesive

Increase overall strength and stronger load-bearing capacity

Oxygen resistant coating

Effectively suppress the reaction between metal surface and oxygen

**PETG EXCIMER FILM ALL-ALUMINUM HONEYCOMB PANEL
HIGH PRESSURE RESISTANCE WITHOUT DEFORMATION**

1. Made of metal, so easy to recycle, is a green product, light weight, high strength, rigidity and good tear resistance.
2. Excellent weathering performance: High temperature resistance, corrosion resistance, aging resistance, and flatness is also very high.
3. The boards are large, with variable modulus and high flatness. Customization is possible and can meet the needs of different customers.
4. Flame retardant, sound insulation, heat insulation effect is good. It is also characterized by strong decorative properties, easy processing and stable performance.

PRODUCT FEATURES

18mm honeycomb aluminum core

Bionic honeycomb structure, dispersed force, structural stability, not easy to deform, more durable, upgrading the overall stability, long time no cabinet deformation worry.

PETG Excimer Film Panel Flat Lamination

Smooth feel, not easy to change color, easy to clean, bright color, not yellowing, with a strong visual effect, and has a high hardness, scratch resistance

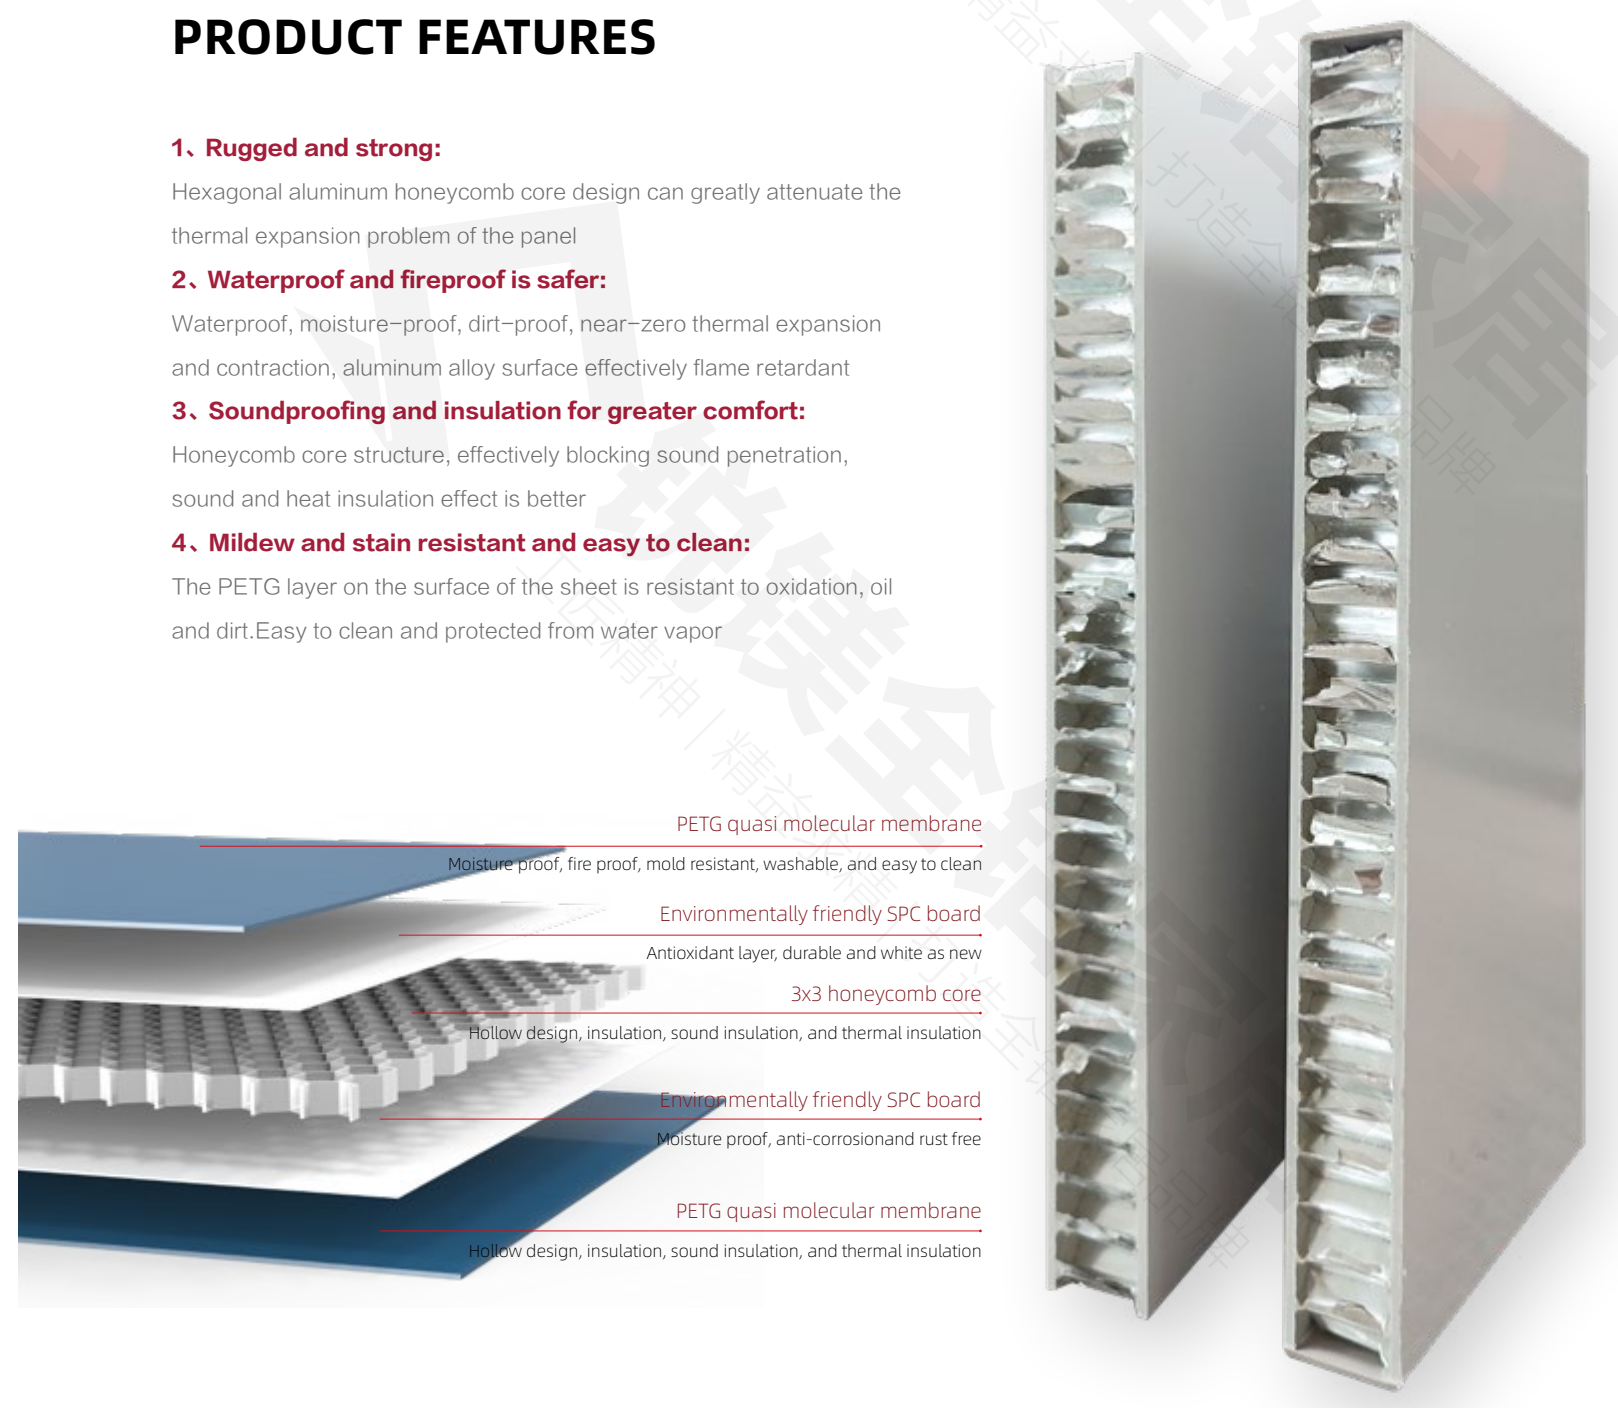

**STONE STEEL SPC ALUMINUM HONEYCOMB PANEL
BATHROOM CABINET PREFERRED PANEL, LOW COST**

SPC Aluminum Honeycomb Aluminum Panel is a kind of raw material for all-aluminum furniture customization, which has the advantages of light weight, high strength, corrosion resistance, environmental protection and so on. It is made of aluminum alloy panel and the middle honeycomb aluminum alloy core plate through hot press forming technology, which has good heat insulation, sound insulation, moisture resistance and other properties. The cabinets made by directly sealing the edges are fully automated and highly efficient.

PRODUCT FEATURES

1. **Rugged and strong:**
Hexagonal aluminum honeycomb core design can greatly attenuate the thermal expansion problem of the panel
2. **Waterproof and fireproof is safer:**
Waterproof, moisture-proof, dirt-proof, near-zero thermal expansion and contraction, aluminum alloy surface effectively flame retardant
3. **Soundproofing and insulation for greater comfort:**
Honeycomb core structure, effectively blocking sound penetration, sound and heat insulation effect is better
4. **Mildew and stain resistant and easy to clean:**
The PETG layer on the surface of the sheet is resistant to oxidation, oil and dirt. Easy to clean and protected from water vapor

AVIATION-GRADE ALUMINUM KUN PLATE

FIRE-RETARDANT AND FIRE-RETARDANT STRONG AND DURABLE

Aluminum Kun board to bamboo charcoal as the main raw material, selected more than 4 years of high-quality moso bamboo, in high-temperature conditions moso bamboo fully pyrolysis carbonization, carbonization, crushing and grinding, to 350 mesh ultra-fine precision pelleting, and then add self-developed environmentally friendly ingredients, by the high-tight equipment high-temperature extrusion of one-time molding.

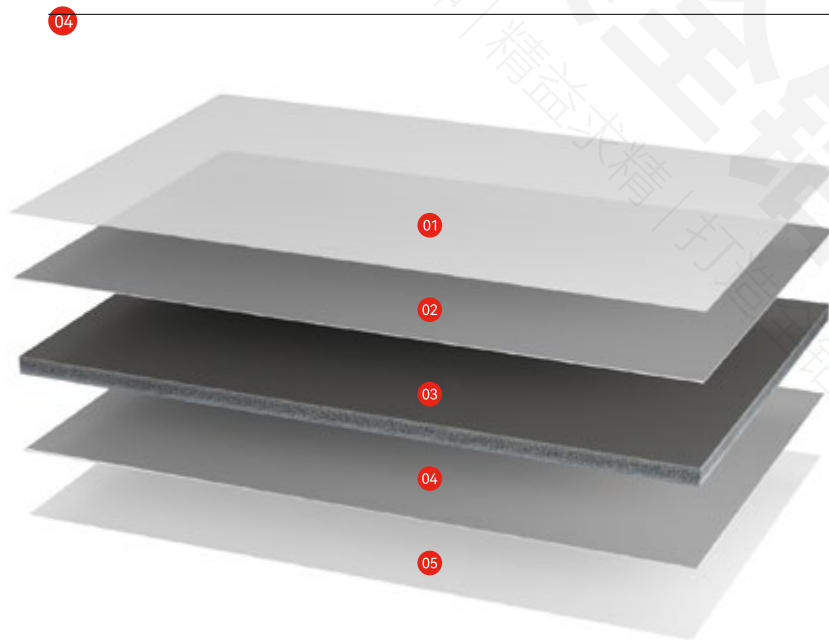

PRODUCT FEATURES

Activated Bamboo Charcoal Fiber

With bamboo charcoal as the main raw material, bamboo charcoal is a natural green material with non-toxic, harmless and non-polluting characteristics. At the same time, bamboo charcoal fiber board has good heat preservation and insulation properties, which can effectively lower the indoor temperature and reduce energy consumption.

THE BONDING QUALITY BETWEEN 6063 PRIMARY ALUMINUM SHEET AND HIGH-DENSITY CARBON FIBER IS EXCELLENT

- 01 Healthy Aluminum
- 02 Healthy Aluminum
- 03 Activated Carbon Bamboo Charcoal Substrate
- 04 Frosted textured layer
- 05 Frosted textured layer

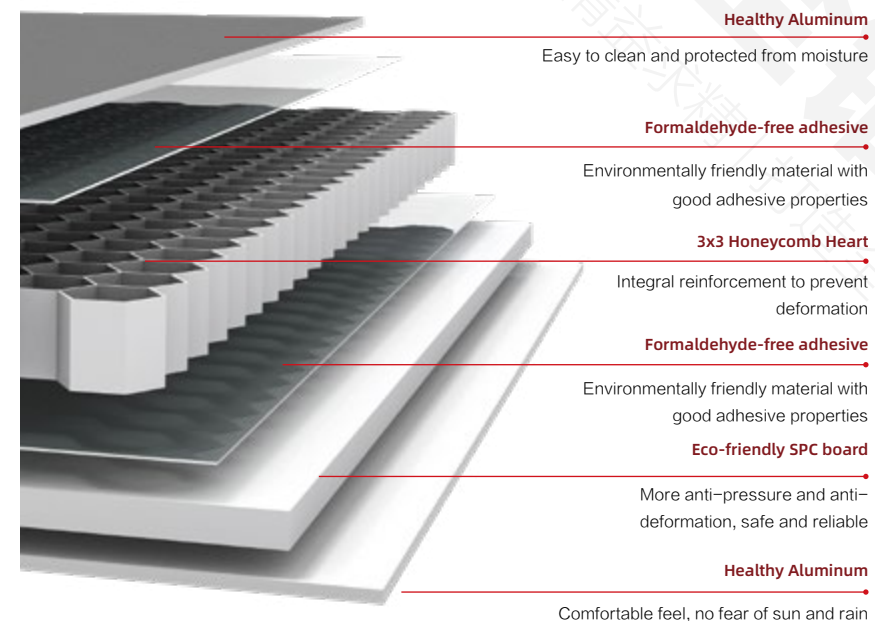

ALL-ALUMINUM BUMPER DECORATIVE PANELS FOR WALL PANELS

BACKGROUND WALL, DECORATIVE PANELS, DOOR PANELS, CABINET BACK PANELS, ETC.

With the advantages of green environmental protection, high strength, fireproof and waterproof, easy installation, good corrosion resistance, beautiful appearance, waterproof and moisture-proof and economical, the all-aluminum bumper panel is an excellent interior decoration material. Aluminum siding is very strong and has excellent performance in withstanding wind pressure, wind load, air pressure and other forces.

PRODUCT FEATURES

- 一、 **light weight:**The density of aluminum alloy is lower than that of steel, iron and other materials, so the quality of aluminum alloy bumper plate is relatively light.
- 二、 **Corrosion resistant:**Aluminum alloy is easy to form a dense oxide film in the air, which has good corrosion resistance. Therefore, the aluminum alloy anti-collision plate has a long service life and low maintenance cost.
- 三、 **impact resistance:**Aluminum alloy has a certain degree of strength and stiffness, and can withstand a certain degree of impact. At the same time, aluminum alloy bumper plate has better elasticity
- 四、 **easy processing:**Aluminum alloy has good machinability and can be cut, drilled, bent, and other machining operations for ease of fabrication and installation.

WALL/CEILING SERIES

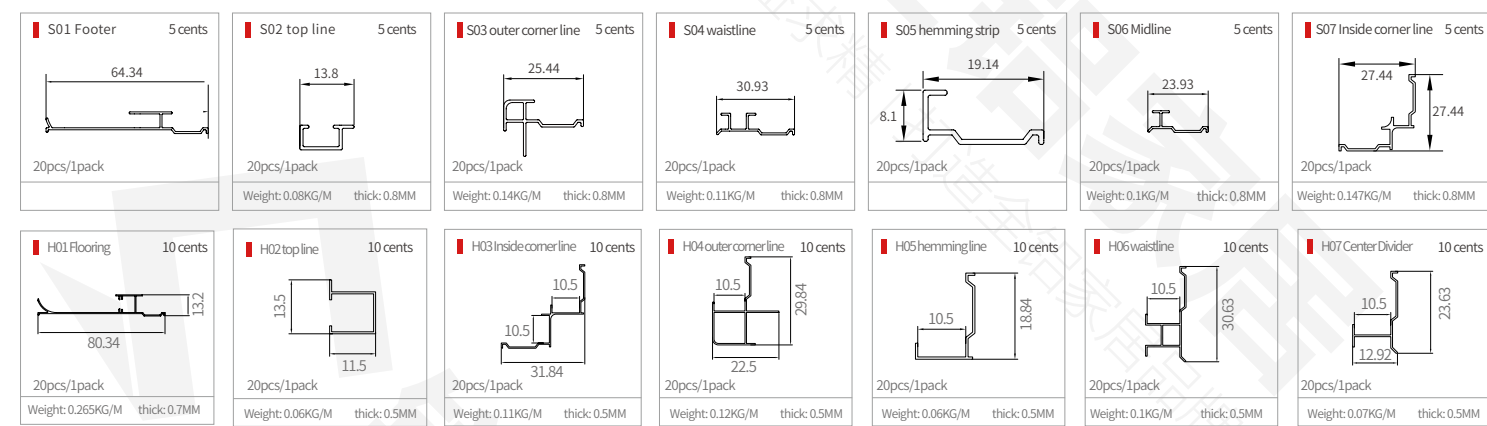

Wall/ceiling series

Aluminum alloy is currently a very popular decoration material. We have multi-functional boards that can be used as a ceiling decor or wall background. As its energy saving, fire prevention, moisture resistance, sound insulation, heat preservation, heat insulation, corrosion resistance, super hardness, no deformation after scrubbing, it is becoming more and more popular in the decoration industry.

CEILING PROFILES

NEW TREND

ALUMINUM DOOR SERIES

EXTRAORDINARY INGENUITY

All-aluminum interior door profiles are light-weight, strong and durable, with high-strength outer frame stabilizing properties. Compared with wooden doors, it is more corrosion-resistant, not easy to deform and decay. The oxidized coloring layer will not peel off, colorfast and durable. And it is moisture-proof and fire-proof, has good sound insulation effect, never rusts, prevents termites and insects, is healthy and environmentally friendly. Thus, it is more popular in market and it is an ideal choice for interior decoration.
